## NATIONAL SOCIETY OF COSMETIC PHYSICIANS

“YES YOU CAN!”  
“YES YOU SHOULD!”

About the NSOCP

[www.cosmeticphysicians.org](http://www.cosmeticphysicians.org)

## The NSOCP

The National Society of Cosmetic Physicians is a four year old organization with over 1,600 members.

The National Society of Cosmetic Physicians is committed to the idea of bringing cosmetic procedures to front line physicians, regardless of medical specialty.

Membership and participation in the National Society of Cosmetic Physicians is open to all licensed physicians.

Our primary activities involve high quality CME Accredited medical educational workshops.

Monthly workshops are held at numerous locations across the United States and Canada.

## PRIMARY EDUCATION FOCUS

Course Criteria is limited to:

1. Cosmetic Procedures
2. Office-Based Procedures
3. AWAKE Procedures
4. Avoidance of General Anesthesia
5. All basic procedures can be performed in a properly equipped and staffed procedure room.

## “YES YOU CAN!”

In the United States, a licensed physician is not legally barred from performing cosmetic procedures.

CME Accredited training is available to learn procedures.

The National Society of Cosmetic Physicians is able to provide you with a support system to learn about the procedures, get trained, and expand your practice to include cosmetic procedures.

## “YES YOU SHOULD!”

Over 1,000 dermatologists are regularly performing procedures offered by the NSOCP.

Over 600 Gynecologists are performing cosmetic procedures.

Over 3,000 members of the American Academy of Cosmetic Surgeons perform cosmetic procedures.

Many of the procedures taught were developed by the non-traditional cosmetic surgeon including:

LIPOSUCTION  
TUMESCENT LIPOSUCTION  
AWAKE LIPOSUCTION
